

STONY PLAIN SUN.

VOLUME 3,

STONY PLAIN, ALBERTA, THURSDAY, MAR. 15, 1923.

WHOLE NUMBER 137

INSURE YOUR DOLLARS!

Paint! Paint! Paint! Paint!

all the world is crying this today.
It saves your Implements, Houses and Barns
from completely **ROTTING** away.

You insure your buildings against **FIRE**
which probably never happens at all.

Your best **INSURANCE** is Paint,
which lengthens their life many a fall.

Why spend thousands of dollars on buildings,
then allow them to rot and decay,

When a **FEW** dollars spent in good Paint
will double their life, experts say.

Only Paint will save you money.

It is pure as pure can be.

The price is very reasonable.

If you need Paint, call and see me.

Where one paints, **ANOTHER** soon follows.

It's a case like rolling a ball.

Try and be first in this great campaign.

SAVE the **SURFACE** and **SAVE** **ALL**.

**C. W. Rossell, Sole Distributor for
the Famous Marswell Paints.**

Agricultural Society Meets.

A meeting of the directors
of Stony Plain Agricultural
Society was held in the Town
Hall on Saturday last.

Mr Hy Shellenberger, the
Society's delegate to the Fairs
Convention at Calgary last
January, gave his report.

The committees in charge
of the various sections of the
Fair were then appointed,
also finance and membership
committees.

The Ladies' Committee that
was elected last year will
have charge of the ladies' sec-
tion this year.

Considerable discussion en-
sued regarding the mem-
bership fee which heretofore has
been \$1. The unanimous
opinion was that it was too
low, and a motion that it be
raised to \$5 was put and car-
ried without dissenting vote.
The membership will admit
the member and all his fam-
ily (who are still at home) to
the Fair grounds on Fairday.
This rule compelling exhibi-
tors to be members of the So-
ciety has been cancelled.

The prize list was then re-
vised. Last year's list was ad-
opted with a few minor
changes, the principal one
being the providing of a sen-
ior and junior class for calves
and single hog entries in the
Grade classes, instead of pens
of three.

The classes for Chester
Whites and Duroc Jerseys
have been dropped, as there
has been practically no local
entries in these two classes
for the last four years.

The Ladies' Committee
held a separate meeting and
revised their section. A list
of the ladies' work (fancy
work) will be published in
the local paper at an early
date.

Appeals Against School Dis- trict Assessments.

When the local Court open-
ed on Saturday afternoon last
the cases of those appealing
against their assessments in
Comet S. D. were called.

Those appealing were: Murd
McKinlay, D L McKinlay,
Mrs. Fairman, J. Richon-
loub, J. Shiner, J. Strassbur-
ger, T. Graden, Geo. Stevens,
Geo. Liebert, Valentin Un-
terschuetz and Valentin Ku-
lak jr.

Henry Enders, Secretary of
the School District, was pre-
sent with the assessment roll.

The appellants appeared to
present very strong cases why
their assessments should be
lowered, and these were noted
by the presiding Justice.

After a two-hour session,
the cases were adjourned till
3 p.m. on Saturday next, 17th
March.

An appeal made by Mr
Peter Schoepf against his
assessment in Blueberry S.D.
will be heard at the same
time.

Inga Secretaryship Contest.

Later dispatches received
from Carvel, the scene of the
last meeting of Inga Council-
lors, which is said to have
been held in a cyclone cellar,
indicate there was no dearth
of applicants for the office of
Secretary, each Councillor be-
ing equipped with an applica-
tion, and then some.

Among those after the posi-
tion are said to be: Chris Pitz-
ler, A. L. Jones, R. W. Faulks,
R. L. Ghieslin, & a couple
of others from Stony.

It is expected the contest
will be decided at the next
meeting, altho the date of
this session has not yet been
made public.

LOCAL NEWS.

Ed Outway was down from Ed-
son over the weekend.

Mr. E. W. Bell was confined to
his house this week thru sickness.

Mr. Bill Reddie, formerly night
watchman on the Fifth Meridian,
has gone to the Coast for the
Summer.

Karl Myer & family, who have
been spending the winter in the
City, are moving back this week
to their summer residence at Jaga.

Mr. R. L. Ghieslin, the well-
known and popular real estate
man, was in town on Tuesday last.

Officer Cavanagh was in Ono-
way this week.

Percy Gilbert left on Monday for
the new Sandybrook layout north
of Edmonton.

Ilus Markula of Edmonton is
said to be about to re-open the
Livery Barn on Second Street.

Owing to the big meeting of
Agricultural directors on Satur-
day afternoon, the U.F.A. regular
meeting was postponed to Sat-
urday, March 17.

M. Barth, Edmonton, was a
visitor over the week-end with
Mr. Henry Shiner.

The Women's Institute will hold
a Masquerade dance on Friday,
Mar. 16th. Everybody Welcome.

Application forms for those
wishing auto licenses for the year
1923 may be obtained at The Sun
Office.

Mr. Passler, from the P. Burns
Creamery Dept., is working this
district this week for prospective
shippers.

Mr. Philip Trapp has sold out
his general stock and intends get-
ting back to the baking business.

The Town's new dray man has
been doing quite a business in the
ashes clean-up line.

That enterprising young mech-
anic, Philip Alt, has installed a
home-made radiophone at his
home in the suburbs.

Ph. Baron has rented the Doll
house & moved there; his house on
Third Street being taken by Mr.
and Mrs. El Samuelfield.

Oats are up 2c. this week.

Adam Wolf shipped 14 head of
stock in to the Edmonton yards on
Thursday last.

The Hydraulic Well Drillers are
making an effort to give Armbrus-
ter & Henning a satisfactory well,
where 5 predecessors have failed.
They are now down over 400 feet.

Several owners of cars without
the new plates were given a warn-
ing in town on Saturday last.

Lutheran services were conduct-
ed in the Town Hall on Sunday
afternoon last.

Kelly wants butter and eggs—
see advt.

Will those readers of this paper
who ordered The Power Farmer
to be sent to their address, thru
The Sun, & who have not receiv-
ed a copy of that paper, kindly
send a post card to The Sun to
that effect?

The Methodist Ladies Aid are
putting on a play "The Young
Village Doctor", in Ducholke's
Hall on the evening of March 28.

and in packages

The Arctic Ocean is said by scientists to be getting appreciably warmer.

MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is
Child's Best Laxative

Hurry mother! Even a cross, sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful to day may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

Tribal custom decrees that anyone who copies the figures on a totem pole shall be severely punished.

"My Hands Trembled and I Could Not Sleep"

Mr. Thomas Honey, Brantford, Ont., writes:—

"When I began taking Dr. Chase's Nerve Food, I was so nervous that when I picked up a cup of tea my hand would tremble like a leaf. I could not sleep well, could not remember things, and there were neuralgic pains through my body. After taking seven boxes of Dr. Chase's Nerve Food, however, I am in perfect health."

DR. CHASE'S NERVE FOOD

50 cents a box, all dealers or Edmanston, Bates & Co., Ltd., Toronto.

Household Hints

Valuable Recipes for the Busy Housewife

Oatmeal and Raisin Cookies
1 1/2 cups rolled oats, 1 egg
1/2 cup butter or shortening.
1 cup sugar, 1/2 teaspoon cinnamon,
1/2 teaspoon cloves, 1/2 teaspoon allspice.
2 teaspoons baking powder.
3/4 cup chopped Sun-Maid raisins.
1/2 cup milk.
Put rolled oats through food chopper. Cream butter. Add sugar, well beaten egg, raisins and rolled oats. Mix thoroughly. Sift flour, baking powder, salt and spices together and add to egg mixture alternately with the milk. Drop from teaspoon on greased pan and bake in moderate oven 15 or 20 minutes. 1/2 cup chopped nuts may be added with the raisins if desired. This makes about 30 cookies.

Brambles

1 cup sugar, juice of 1 lemon.
1 cup chopped Sun-Maid raisins.
Make enough ice crust for one pie and cut up for cookies. Mix the sugar, chopped raisins and lemon juice together. Add a little flour if too juicy. Place a teaspoon of the mixture on each round of crust and fold over like turnovers. Pinch edges down to prevent juice from steaming out. Place in shallow tins and bake until brown.

Killed By Blood Poison

Used old razor for parting his curls. Poolish because 25c buys a bottle of Putnam's Painless Corn Extractor which for fifty years has been removing corns and warts without pain. No failure if you use "Putnam". Refuse a substitute, 25c everywhere.

Doctors Plan "Black List"

Doctors in London are suggesting a "black list" of patients who go from one medical man to another instead of paying their bills.

Relieved After Nine Years of Suffering

Manitoba Man Finds Secret of Health in Dodd's Kidney Pills

Mr. P. R. Boissano writes: "Everyone to know what benefit I received from Dodd's Kidney Pills. La Broquerie, Man.—(Special).—'Before taking Dodd's Kidney Pills I was not able to work or sleep and now I am completely relieved of my kidney trouble.' These are the words of Mr. P. R. Boissano, well-known and highly respected here.

"I have suffered for nine years and tried all kinds of remedies. It was Dodd's Kidney Pills that restored me to good health. I am now able to get about on the farm, have a good appetite and sleep well."

Dodd's Kidney Pills strengthen the kidneys and put them in shape to do their full work of straining the impurities out of the blood. With pure blood there is good health all over the body.

If you have not used Dodd's Kidney Pills for kidney trouble ask your neighbors about them.

Quadruple Pay Sunday

According to the laws of Australia a man who is required to work on Sunday must be paid four times his daily wage.

A Power of Its Own.—Dr. Thomas' Eclectic Oil has a subtle power of its own.

All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

Working a Word Hard

Frenchman Visiting Shipbuilding Plant in States Was Puzzled

We do not always realize how frequently we use the same sound to express entirely different meanings. The puzzled Frenchman who was making a visit to a Yankee shipbuilding plant realized it, however. He saw a man working at a piece of timber and asked him what he was making.

"A yard," was the laconic reply.

"Is it nearly finished?" the Frenchman asked.

"All but a yard," said the workman.

"Where do you get your timber?" "From the yard."

Thereupon the Frenchman gave up in despair.—Youth's Companion.

Minard's Liniment for sale everywhere.

Power From Sun's Rays

New York College Graduate Demonstrates Miniature Engine

A miniature engine, whose power was generated by the sun's rays, was successfully demonstrated in the laboratory of the college of the city of New York by Bernard Grosman, a graduate.

A parabolic copper mirror caught and focussed the rays upon a test tube of water, the heat causing steam, which in turn operated the tiny motor at a high rate of speed.

Grosman said his invention could be used in office buildings to provide light, heat and power, while the sun motor could be utilized to operate motor trucks. He will build a larger model to prove his theory.

CATARHAL DEAFNESS

Is greatly relieved by constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a humming sound or imperfect hearing and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists, F. J. Cheney & Co., Toledo, Ohio.

Flour Mills Cannot Supply Demand

Large export orders of flour are being received by the Medicine Hat milling companies from the Orient and the United Kingdom, to which markets large shipments have been made during the past few months. All mills are running to capacity, and practically all report that they are unable to supply the demands for low grade flour.

A ton of water from the Atlantic, evaporated, yields 81 pounds of salt; a ton of Pacific water, 79 pounds; a ton of Dead Sea water, 187 pounds.

ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism
Toothache Neuralgia Neuritis
Earache Lumbago Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoacetic Acid Salicylates. It is well known that Aspirin means three ingredients, to name the public against imitations, the Salicylic Acid of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Great Benefits Will Follow Plan Evolved For Interesting British Youths In Canada

A direct stimulus to British-Canadian immigration, particularly in turning the minds of the younger youth agriculturally inclined, towards farming opportunity in Canada, is contained in the announcement that Mr. E. W. Beatty, President of the Canadian Pacific Railway, is awarding a fall summer course at the agricultural schools of Alberta to the four prize winners of the Young Farmers' Clubs of Great Britain. Few schemes, so far devised with an encouragement to desirable immigration in view, are calculated to have the permanent and lasting effect of this one, with the best and most accurate knowledge of farming conditions in the Canadian West implanted by Canada's foremost agricultural experts in youthful minds cultivated to assimilate it, and capable of disseminating their appreciation among the youth of Great Britain.

The London Daily Mail was responsible for the movement known as "The Young Farmers' Clubs of Great Britain." Small organizations have been formed in farming communities of the British Isles and some particular or specialized line of farming taken up by its members, the result being Calf Clubs, Pig Clubs, Poultry Clubs, Bee Clubs, Rabbit Clubs, etc. For a long while there has been a similar successful organization in the United States which each year offers a prize for a trip to Europe to six members of the prize-winning club in the country.

A like movement in Canada, whilst it has not moved along with the same enthusiasm, has nevertheless shown considerable progress in certain localities. These organizations in Saskatchewan increased their membership from 460 in 1912 to 20,000 in 1921, whilst in the same time, in the province of Manitoba, the movement has developed from an initial 7 clubs to 240 clubs with 1,500 branch clubs and a total membership of 25,000.

There has been considerable association and interchange of visits between these boy organizations of the United States and Great Britain which has brought the operations of each to a high pitch of enthusiasm and done much to effect a mutual understanding in agricultural matters between the two countries. The London Daily Mail conceived the idea of promoting the same spirit of emulation and competition and giving the youthful students of agriculture in Great Britain more comprehensive understanding of overseas farming conditions by effecting an exchange between the agricultural students of the Motherland and the Dominion. They approached the President of the Canadian Pacific Railway, with the result that he authorized the visit of the delegation of four young English farmers to Canada to take the summer agricultural courses in Alberta, all their expenses being defrayed.

The four selected boys will arrive in Canada early enough to commence their summer course at the Alberta agricultural schools in May. They will be given as thorough and comprehensive an impression of Western Canadian agricultural conditions as possible in the time, visiting different areas and such agricultural fairs and exhibitions as offer. They will return to England in the fall, where arrangements have been made for them to write up their impressions of the agricultural press of the British Isles.

The benefits which may follow in the wake of this scheme are manifold. No phase of Canadian immigration has, in the past, produced such excellent results as that of young boys from England who have grown up with the land and rapidly absorbed its ideas and ideals. Could the settlement be induced of those with expert agricultural knowledge and experience in their formative years, a tide of very valuable colonists might set in. For the main part agricultural students in the British Isles are farmers' sons, and this dissemination of authentic information on Western Canadian conditions in a class Canada has always considered most eminently desirable as settlers, cannot but be productive of satisfactory results.

Other developments should result from the stimulation of mutual interest in agriculture in the two countries. There is some possibility of the award

being made an annual one, and it is confidently hoped that some arrangements may be made to have representatives of the Canadian Young Farmers' Clubs visiting England every year. The visit of young British agriculturists should stimulate a desirable immigration movement, whereas a compulsory movement of Canadian youthful farmers overseas, in addition to furthering agricultural knowledge, should develop a clearer understanding of the British and European markets, to which in the future Canada must look to an ever-increasing extent for the disposal of the products of her farms.

Stock Kept Alive On Prickly Pears

South African Agricultural School

Interesting experiments of great importance to areas liable to severe drought were carried out recently by the Grootfontein School of Agriculture in South Africa to ascertain whether stock could be kept alive for lengthy periods on a ration of prickly pear leaves alone.

It was demonstrated that sheep, though they fell off in condition, could exist for 289 days solely on a diet of prickly pear, and when a small allowance of alfalfa was fed in addition after that period the sheep were able to go for 560 days without a drop of water, depending on the moisture from the prickly pear.

A Record In Construction

What is believed to be a record in the construction of a paper mill has been achieved by Westminster Paper Mills, Ltd., New Westminster, B.C. Erection of this plant was started on July 8, 1922, and at 4 p.m. on December, 1922, the first paper was produced. The company's product will be made from pulp made in British Columbia, produced by the Whalen Pulp and Paper Mills.

A Suitable Prairie Rotation

Crop Rotation the Vary Basis of Successful Farming

The experimental farms system has given almost unlimited study to the question of crop rotation. The Deputy Minister of Agriculture, Dr. J. H. Grisdale, who for many years director of the experimental farms system, holds the view that a suitable system of crop rotation is at the very basis of successful farming. For many years special attention has been given to this matter at the Brandon Experimental Farm, and it is now confidently believed that a five-year rotation that uses corn is the one best suited for the province of Manitoba anywhere south of Neepawa and possibly even farther north, and from the eastern boundary to the western. This rotation includes wheat, corn, manure, oats or barley seeded down, has ploughed up in mid-summer. This system, it has been pointed out in an address delivered by Dr. Grisdale, does away with summerfallow, corn taking its place. Corn, it is stated, is not of itself a highly profitable crop, but it invariably pays for itself. The corn, harvested and stored and valued at \$3 per ton, more than pays for the cost of producing, whereas the practice of summerfallowing, adopted to eradicate weeds and conserve moisture, gives no direct return for the summer's work. The yield from the crop following corn has been found to be just as good, and in some cases a little better, than after summerfallow. The use of corn in the rotation along with manure, favors the conservation of moisture, destroys most of the weeds, and increases the fibre. That is to say, the adoption of corn used in a cleaning crop tends to build up the soil by increasing the humus, conserving moisture, and promotes weed destruction.

Japanese English

Here is a copy of traffic rule No. 2, said to be actually used by the street cars in Tokyo:

"When a passenger of the foot leave in sight, tootle the horn trumpet to him melodiously at first. If he still obstructs your passage, tootle with angry vigor."

Clay Products Industry May Be Established In The Near Future In Saskatchewan

The attention of those interested in Canadian raw materials for clay products industries in Canada has for many years been directed to the extensive clay belt known to extend over a wide area along the Weyburn branch on the Canadian Pacific Railway in Southern Saskatchewan.

Owing to the nature of the clays in this field and their convenient situation as regards transportation, it has frequently been predicted that Saskatchewan will eventually take up an important industrial position in the Dominion based on industries utilizing clays, coals and natural gas.

Data on the Saskatchewan clay deposits has until recently been somewhat general, but steps have lately been taken to acquire more specific knowledge of the various beds, their suitability for a variety of clay products, and accurate investigations have been made with the ultimate object of placing before those interested such information as may lead to practical development.

A course at ceramics was instituted at the University of Saskatchewan to ensure a staff of experts for the future industry and a ceramic engineer secured who had a wide practical as well as theoretical experience. Private prospecting has supplemented government efforts and today reliable information on the Saskatchewan clay deposits is so extensive and at the same time so encouraging as to warrant the closest attention from manufacturers and investors.

So far the surveys carried out by the Province's Ceramic Engineer have resulted in concentrating attention on the deposits in the Redwyn-Willows and Eastend-Ravenscrag districts, these surveys having disclosed in these territories very large deposits of commercial clays. There are present in the district clays of a wide range of physical properties which permit of close control in body mixtures. In the immediate vicinity of

Eastend there are at least two large deposits, easy of inspection, from which not only tests have been made, but many carloads shipped to Medicine Hat, Alberta, and manufactured into creditable and extensive lines of crockery and stoneware for the Eastern Canadian market.

In the Redwyn-Willows district the clays have been found to be of the buff or semi-buff types burning nearly white. In some cases a creamy white burning clay was found much lighter than similar commercial clays of Great Britain and the United States. These clays should form the basis for the manufacture of such lines as granite ware, floor and wall tile, insulators and similar ware where a white body is desired. There is also to be found in this district clays of the stoneware type as well as semi-refractories suitable for screw-pipes, terra-cotta, enamelware and ordinary fire brick and stove linings. In the Eastend-Ravenscrag district the clays are of the earthenware and stoneware types, highly suited to the manufacture of Rockingham yellow ware and a wide range of stoneware, including chinaware.

The establishment of an extensive clay products industry in the province of Saskatchewan in the not distant future, can be reasonably expected. Excellent clay deposits of every variety are available, with fine transportation facilities and in proximity to supplies of coal and other requisite materials for manufacture. These clays have been proven the equal of deposits anywhere, and exhaustive tests made in the ceramic laboratories of New York all gave eminently satisfactory results.

Saskatchewan is the logical home for such an industry in Canada. There is a constantly growing market for building material such as brick, tile and terra-cotta and great market possibilities for stoneware and even tableware. The province of Saskatchewan alone imports heavily of these commodities each year. The existing industry in Canada is totally inadequate to supplying domestic requirements, and in the last fiscal year the Dominion imported clay products to the extent of \$10,751,592 as well as clays of various kinds to the extent of \$672,782, and such importation is on the increase rather than otherwise. Certainly there is a splendid opportunity for the investment of capital in the clay-working industry in Saskatchewan.

Canadian Cattle In Demand Overseas

Commissioner of Agriculture for Canada Making Preliminary Arrangements

The Commissioner of Agriculture for Canada, Mr. Duncan Marshall, who is at present in England, in making preliminary arrangements for the entry of Canadian store cattle, says that a keen demand for such cattle exists in that country at the present time. Parties have interviewed him from Glasgow, Bristol, Leith, Newcastle-on-Tyne, Salford and Dundee, all anxious to have shipments made to their respective ports. The National Farmers' Union, formerly opposed to the removal of the embargo, appears to have completely reversed its attitude. Its members are now anxious to have consignments made direct to them, in order that commission charges may be avoided. A delegation of Scottish farmers told Mr. Marshall that they wanted Canadian cattle early in the spring to be fed on large stocks of turnips and mangels—wurzels that were still on hand.

Labor Report Satisfactory

The Government labor report covering the month of January is on the whole very satisfactory. Unemployment in Canada among members of trade unions stood at 6.4, as compared with 6.3 in December, and 3.1 in January, 1922. Time lost, due to industrial disputes, was less than in December or January of the previous year. The report places the average cost of a weekly family budget in sixty cities was \$10.52, as compared with \$10.30 in December, \$11.03 in January, 1922, 14.46 in January, 1921, and \$10.30 in June, 1920, the highest point reached.

Sun-Room on Wheels

Mount Robson, 13,069 Feet, Is the Highest Peak in the Canadian Rockies

Canada has some of the most magnificent mountain scenery in the world, as anyone who has travelled through the Northern Canadian Rockies knows. The scenery is so varied, so full of surprises, that if the traveler gives his constant attention to one side of the car he is almost certain to be missing something very wonderful on the other side.

For years trans-continental railways in America have tried out various types of observation cars through the mountains, the objective being to give their patrons, the best possible views of the scenery. Some of them have been simply open platform cars, with no protection from the sun or inclement weather.

Car builders have been vying with one another in the construction of these cars to provide the finest observation facilities along with the maxi-

mum of comfort. At last the Canadian National Railway shops at Leaside, Toronto, have turned out a car which has all the requisites.

This car might almost be described as a sun-room on wheels, in view of the large percentage of glass used in its construction. It is regulation size, with a closed-in section 44 feet long and a spacious open compartment at each end where passengers may enjoy the open air. The interior of the car has sixteen large windows on each side running from the seat arm rests to the ceiling. These windows are 4 ft. 5 in. high by 28 in. wide, having two panes of glass 24 in. by 24 in. one above the other. There are also two of these windows at each end of the car, one at each side of the door leading out to the platform.

The seats are arranged transversely on each side of a centre aisle, as in an ordinary car, there being sixteen

double seats on each side providing seating capacity for 64 passengers. The platform provides capacity for 26 additional persons. The entire car side framing is of steel, with the interior finished in British Columbia cedar, stained mahogany. The interior is equipped with the most up-to-date ventilators, electric light and shades.

One of these new cars was exhibited at Toronto Exhibition last year for the first time, and 150,000 people inspected the car during the fair. It was very favorably commented upon. The car in many ways is an innovation, and marks another advance move by our National Lines.

These cars are to be used on the Mountain Division of the Canadian National Railway, and will enable travellers to view the majestic scenery on both sides of the car with the utmost ease and comfort.

Still Hope That Turk Peace Agreement Will Be Possible

Constantinople.—Turkey's rejection of the Lausanne peace treaty, which was not unexpected, has been received calmly in both England and native circles in Constantinople. The belief persists that it is still possible to reach a middle ground agreement to wards peace.

The Ankara Government will now proceed to draft a reply to the Allies, which will contain counter-proposals within the limitations established by the assembly's debates, and Monday night's resolutions passed by the assembly, which demand strict adherence to the principles of the national pact on all matters affecting Turkey's absolute independence.

The Turkish Government has sent a note of protest to the allied high commissioners here over Greece's refusal to repatriate Turkish prisoners under terms of the recent agreement.

London.—A dispatch to Reuters from Constantinople says the Nationalist Government seems to have won a complete victory on the Lausanne treaty situation in the assembly at Ankara. While the extremists were making objections to the Government proposals, the ministers organized their supporters and gullied the debate with a motion of confidence which specifically endorsed Ismet Pasha's attitude at Lausanne.

Refreshes Weary Eyes

When Your Eyes Get Dull and Heavy, use MURINE. It instantly refreshes tired eyes, relieves eye strain, cures eye diseases, clears, brightens and soothes. Recommended by All Doctors.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

Heals Inflamed Nostrils, Stops Catarrhal Discharge, Relieves Colds Quickly

You'll be pleasantly surprised at the quick action Catarrhoxone has upon Catarrhal conditions in the nose or throat. It is so soothing, so healing, so agreeable to use, so safe and reliable that thousands praise it and use it every day. No nasty medicine to take—you just breathe in the balsamic vapor, the healing essences of Catarrhoxone and feel better at once. Catarrhoxone is breathed through the inhaler into every air cell in the lungs, into every air passage in the throat and nostrils. No matter where the cold or Catarrh is, Catarrhoxone will reach it. You can keep free from coughs, colds, bronchitis and the like by using Catarrhoxone. Two months' treatment. One dollar, small size 50c. Dealers everywhere, or the Catarrhoxone Co., Montreal.

Turks Say Lausanne

Treaty Inacceptable

Willing to Continue Negotiations Under Certain Conditions

Constantinople.—Advises from Ankara state that the Turkish National Assembly has decided that the Lausanne treaty is unacceptable, being contrary to the National pact.

The Government, however, was authorized by an important majority to continue negotiations under certain conditions. The first of these provides for the settlement within a limited period of the Mosul question. The second condition is that all financial and administrative questions be settled in conformity with the complete independence of the Turkish nation. In the third place, the evacuation of all occupied territories immediately after the signature of peace is demanded.

German Government Floating New Loan

Issue of \$50,000,000 Will Be in Foreign

Berlin.—The law authorizing the issue of \$50,000,000 worth of treasury bills, which was given official publication, is believed to provide the first instance of a government floating an internal loan quoted only in denominations of foreign money. The law signed by President Ebert makes no mention of the German mark, but says the treasury bills may be purchased in British, U.S., Swiss, Dutch, Swedish, Norwegian, Danish, Argentine, Spanish and Japanese currencies. French and Belgian francs are not included. The work of fixing the details and conditions surrounding issue of the bills is left to the discretion of the Ministry of Finance.

Russia Needs Money

Moscow.—Russia needs money or credit to rehabilitate her industries, not more famine aid, Colonel William N. Haskell, Director of the American Relief Administration, has informed United States Secretary of Commerce Hoover.

B.C. Mine Exhibit

Victoria.—A fine exhibition of the mineral wealth of British Columbia will be made at the forthcoming British Empire Exhibition to be held in London, England, next year, according to Hon. William Sloan, Minister of Mines.

W. N. U. 1463

Federal Government Will Assist In Solving Marketing Problems

Ottawa.—Whether the committee to investigate the marketing of agricultural products will inquire into the grain trade, or whether it should be done by a Royal commission, will be the subject of advice from the Department of Justice as a result of the first meeting of the committee. Most of the western members favor the commission plan, and to it the Government is now quite agreeable, but it does not wish to have history repeated—an inquiry started and then arrested by process of injunction.

If the Justice Department finds any way of advising a commission of inquiry without the hazard of an injunction process, that form will be followed. It is anticipated, however, that, as was the case with the Wheat Board, a certain amount of federal and provincial co-operation will be necessary to secure the fullest form of commission inquiry. If this is not possible, the committee will go into it, though the job is recognized as onerous that it is not especially relished. Moreover, there are plenty of other subjects connecting with farm product marketing to be taken up.

With the cattle embargo being removed, livestock shippers are encountering the same difficulty in getting space for cattle as used to be encountered by farmers some years ago in securing cars for their grain. It is found that many of the companies have the letting of cargo space in the hands of brokers. There is no tribunal over the steamships, which arbitrarily can allot space as they please. In view of this fact it is very probable that any continuance of difficulty in securing cattle accommodation will induce the Government to put into the service of this trade a number of the ships of the Merchant Marine, which can be adapted without much difficulty.

SAPPHIRE FIND IN B.C.

STONES RESEMBLING BRAZILIAN DIAMONDS BRING HIGH PRICE

Vancouver.—A bed of diamonds equal in purity to Brazilian diamonds, and varying in size from one to three carats, has been discovered by Harry W. Oakley, of Campbell River, B.C., who says his find was made halfway between Cumberland and Courmayeur.

The stone, of which he has picked up 45 within the last six months, have been pronounced by experts in Portland Ore., as sapphires, but so nearly white that they resemble Brazilian diamonds. Mr. Oakley has sold several of the stones at \$25 a carat.

ECZEMA IN RASH ON HANDS Fingers Cracked. Lost Sleep. Cuticura Heals.

"Eczema began with a rash on my hands and I could not put my hands in water. It grew worse every day and my hands and fingers all cracked which made them covered with eruptions. I lost sleep with the itching."

"The trouble lasted three months before I heard of Cuticura Soap and Ointment, and after using three cakes of Cuticura Soap and two and a half boxes of Cuticura Ointment the eczema was healed." (Signed) Miss Eva E. Belliveau, 314 Highland St., Moncton, New Brunswick.

For every purpose of the toilet and bath Cuticura Soap, Ointment and Talcum are wonderfully good.

Sample Pack Free by Mail. Address: "Cuticura, Ltd., 415 St. Paul St., W. Montreal." Send every-where. Soap 25c. Ointment 12c. Talcum 25c. "Cuticura" Soap shaves without men's.

Help You Run the Ball

—bring home the bacon, collar the blue vase, carry the message to Garcia, etc.

LITTLE Raisins, full of energy and iron, will put the pep into you that makes winning plays. Use vim like it in your business, too.

One hundred and forty-five calories of energizing nutriment in every little five-cent red box that you see.

Comes from fruit sugar in practically predigested form—levulose, the scientists call it—so it goes to work almost immediately. Rich in food-iron also.

Try these little raisins when you're hungry, lazy, tired or faint. See how they pick you up and set you on your toes.

Report on Banking.

Prof. McGibbon's report on
Banking and Credit in the
Province in relation to the
Agricultural Industry, has
been made available to the
members of the Alberta Legis-
lature. The Professor urges
that certain improvements in
the banking situation should
be made. Vigorous criticism
of credit conditions is of-
fered.

With respect to a Provin-
cial Bank, Prof. McGibbon
believes there are insurmount-
able difficulties in the way of
the establishment of such a
bank, such as the obtaining
of capital at a sufficiently
lower rate to enable it to
provide cheaper credit.

Prof McGibbon in his con-
clusion expresses the opinion
that the chartered banks have
been a great agency in the
development of the new pro-
vince. He says that many
of the farmers are financing
themselves thru the banks
and are gradually winning
thru, but that there will be
always a large number of new
settlers with the same diffi-
culties and problems to face.
He says that in recent years
the farmers have begun to
turn to the banks with the
same frequency as business-
men, and that there should
be a revision of the Bank Act
to render the banks as con-
venient and flexible agencies
for the dispensing of credit to
the farming as to the indus-
trial life. He says that a fail-
ure to accomplish this pur-
pose will undoubtedly lead to
the establishment of compet-
ing institutions, Government
operated or otherwise.

Prof McGibbon, in the re-
port, discusses the evidence
taken as to interest rates paid
by farmers, declaring that the
current rate of interest on
farmers' loans was found to
be Eight, Nine and Ten Per
Cent.

Much objection was also
found to the period of a farm-
ers' loan being only two or
three months, and the sug-
gestion is made for a form of
credit contract to give the
bank authority to take cer-
tain contingencies arise.
Another matter commented
upon rather unfavorably was
the frequency with which
matagators of banks in the
rural districts are changed.
Criticism of the class of
mortgage offered by mort-
gage companies is also made.

The recommendation is
made for a credit commis-
sioner for the investigation of
complaints with respects to
credits.

Government Dispensaries.

Two Government dispens-
aries, one in Edmonton and
one in Calgary, will be open-
ed by the Provincial Govern-
ment for the filling of pres-
criptions for liquor issued by
doctors, when the drug stores
in these places are prohibited
from handling liquor other
than in 6-oz. bottles.

The order turning over the
liquor sales from the drug-
gists to the Government dis-
pensaries will shortly be is-
sued by the Government, al-
though it is understood the
step will not be taken until
after the liquor export houses
are finally closed out.

The two dispensaries will
be separate from the Govern-
ment vendor's stores altho
under the jurisdiction of the
vendor. Only at these dispen-
saries will doctors' prescrip-
tions be filled when calling
for more than six ounces.

In the remainder of the
province the druggists will con-
tinue to fill prescriptions for
liquor as heretofore, but it is
probable that all drug stores
in the province will be event-
ually restricted to the sale of
six ounce bottles and that
quantities of liquor above this
amount will have to be ob-
tained from the government
dispensary in the nearest city.

Wonderful Value for \$2.00.

It is a source of constant wonder
to publishers the world over how
The Family Herald and Weekly
Star of Montreal can be printed
and mailed to any part of Canada
for the small subscription price of
two dollars a year.

Some other papers may quote a
lower subscription price but they
do not contain one fifth nor in many
cases not even one tenth of the
reading matter published each
week by the Family Herald and
Weekly Star. People everywhere
are now selecting their reading
material with greater discrimina-
tion than in the past. Instead of
being loaded with a lot of second
rate papers and magazines, they
are now saving money by discard-
ing the chaff and subscribing to
the Family Herald and Weekly
Star of Montreal—the one big all-
round journal that provides in its
seventy-two pages every week an
ample volume and variety of read-
ing to satisfy every member of the
family.

In addition to being the best in-
formed, most practical and help-
ful paper for farmers, the Family
Herald and Weekly Star provides
the best of serial and short stories,
complete departments for women
and young folks, powerful editor-
ials on the most important topics
of the day, a complete weekly di-
gest of world news, in fact a ver-
itable library of information, enter-
tainment and inspiration. On ac-
count of its clean, wholesome and
helpful character, its phenomenal
value and powerful influence for
good, it is not too much to say
that the Family Herald and Weekly
Star of Montreal should be in
every Canadian home.

THE AMOUNT OF THAT CHEQUE
We have made arrangements with the E. H. Heath Co. Limited who
publish the CANADIAN POWER FARMER whereby we are able to
offer that farm magazine together with our own weekly at the one
price for both papers.
The CANADIAN POWER FARMER is West-
ern Canada's biggest farm monthly. It is now
in its twentieth year which means that it is
thoroughly established throughout the West.
It deals with the mechanical side of the farm.
Every issue is full of helpful hints and ex-
periences on the operation of all kinds of farm
machinery from a washing-machine to a trac-
tor. Its editorial staff consists of men thor-
oughly familiar with every branch of farming
both from the practical and theoretical stand-
point. Every month the magazine publishes
experiences sent in by readers. Many of these
are short cut findings that are real money
savers to farmers.
This offer may be withdrawn at any time.
Without doubt your intention is to renew for
this weekly, then why not take advantage now.
Your subscription to this weekly together with
a year's subscription to the CANADIAN
POWER FARMER for the same price as this
weekly alone. This is where you get the \$1.50.
Mail your cheque or drop into our office the first
time you are in town.

The Canadian Power Farmer \$1.50
The Stony Plain Sun. \$1.50

More Irrigated Land

Large Area of Irrigated Land Will be

Added this Spring. Water will be available in the spring on two of the irrigation projects in Southern Alberta, namely the Lehigh-North and the United, according to the annual report of the irrigation Council of the province of Alberta. Considerable work is now being done towards colonizing the surplus lands in these districts. A total of 40,000 acres of land has been listed at prices ranging from \$15 to \$50 an acre. The council has a mailing list of 8,000 in its colonization work, and have already received more than 400 inquiries for land. Twenty prospective settlers have been shown over the projects.

INFLUENZA LEAVES
THE BLOOD THIN

To Restore Full Health Tonic

Treatment is Recommended

Probably the most treacherous trouble that afflicts the people of Canada during the winter months is influenza. It is, of course, a common ailment, but often after the characteristic symptoms have been behind it a weakened and debilitated constitution which makes the ailment a very real and serious one. All this is due to the fact that the attack of influenza has left the blood abnormally weak and thin. Weak blood means impaired digestion, a feeling of tiredness after slight exertion, and often a nervous breakdown. This condition will continue until the blood is restored to a rich, red, disease resisting condition. For the purpose of enriching and stimulating the blood no other medicine equals Dr. Williams' Pink Pills. These pills act directly upon the blood, and through the blood upon the nerves and in this way act as a restorative to the whole system. Thousands throughout Canada have proved the value of Dr. Williams' Pink Pills in cases of this kind among them Miss Ida M. Fraser, R.R. No. 2, Thessalon, Ont., who says: "I passed through a severe attack of influenza which left me pale, thin and weak. Indeed I was so weak I could scarcely stand upon my feet. The medicine I was taking in the hope of bringing back my health did not help me, and I was greatly discouraged. Finally I decided to try Dr. Williams' Pink Pills, and from the time I had taken the first box my health began to improve. I used six boxes altogether, and found as a result that I was again strong and healthy, and I think that in cases of this kind they are worth their weight in gold."

Many Foreigners Naturalized. Men of every nationality secured status of citizens of Canada during the fiscal year ending March 31, 1923. Altogether 10,360 foreigners were naturalized. Americans with 2,206 and Russians with 2,060, led in the number of persons, who became naturalized Canadians.

Sluggish Liver

Don't take chances. Get Carter's Little Liver Pills right now. They never fail to make the liver do its duty.

They relieve constipation, biliousness, indigestion, flatulence, stop dizziness, clear the complexion, put a healthy glow on the cheek and sparkle in the eye. Be sure and get the genuine.

Small Pill—Small Dose—Small Price

A 13-year-old Ogden, Utah, school-boy has trained a wild cat to follow him to school every day.

HAD BAD PAINS
IN HER HEART

Nerves Were Very Bad

Mrs. John Case, R. R. No. 4, St. Catharines, Ont., writes:—"I wish to say that I have been bothered very much with my heart and nerves. I doctored myself in two different doctors but did not find much relief. I would have such bad pains in my heart, at times, I would be almost afraid to move or breathe, and at night I could not sleep. If the pains in my heart were gone, my nerves would be so bad I could not lie still and would only get a little sleep by being tired out. My stomach was also very bad and I could eat but very little, and then only certain things or I would have so much distress which always made by heart worse."

I had been suffering for nearly two years until one day I was talking to our druggist about the way I felt. He advised me to get Milburn's Heart and Nerve Pills, a fair trial. I have now taken five boxes and am feeling so much better. I am able to do my own work, and can eat anything I wish. I cannot praise

MILBURN'S
HEART AND NERVE PILLS
too highly."

Price—One a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Ex-Kaiser Wilhelm's son, the former Crown Prince of Germany, is writing a book on war.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and prized in every section of this broad land.

It is asserted that the existence of cancer and tuberculosis in large sea monsters has been definitely established, and that these discoveries may direct the attention of investigators of these diseases to the earlier forms of life that still exist in the sea.

It's a main highway

The way to satisfaction, comfort and health through Instant Postum, has become a world-wide way.

This famous table beverage which has stood the test of twenty five years, fills every requirement of taste for a hot and invigorating mealtime drink. Unlike tea or coffee, Instant Postum

"There's a Reason"

Bought Canadian Paper

U.S. the Largest Customer for Surplus Newspaper

Newspaper paper exported from Canada during January, 1923, amounted to 1,665,783 cwt., and was valued at \$6,138,837, slightly less than was exported in December. In January of last year the quantity exported was 1,254,024 cwt. The United States was Canada's largest customer by far for newspaper last January, taking 1,633,823 cwt.; New Zealand took 9,381 cwt.; and Australia 5,988 cwt. Smaller quantities went to British West Indies and South America. Australia was Canada's largest customer for bond and writing paper, taking 283 cwt. out of a total of 739 cwt. The United Kingdom and Australia imported most of the 15,773 cwt. wrapping paper exported in January. The United Kingdom took 9,706 cwt., and Australia 4,529 cwt. Newfoundland and Japan were the next best customers for wrapping paper.

Postal Air Routes

Stefansson Predicts Mail Delivery in Arctic by Airplane

The post office department announced a short time ago that a regular mail service will be opened between Port McMurray, in Northern Alberta, and Aklayik, on the delta of the Maclean River, the Canadian Arctic's newest post office and trading center. The mails will be carried by five relay huskies in sleighs, and the postman will be two months in the wilderness each time he makes the trip. He will also carry the canopy of heaven, surrounded by his dogs. By day he will mush across the white spaces in a manner that Jack London made famous. But even this last bit of romantic human enterprise, is threatened. Mr. Stefansson has already mapped the Arctic with polar air routes which he says will come within a few years. So the world moves on.—Winnipeg Tribune.

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

Wolf Dogs For Movies

Forty "huskies," or wolf dogs, passed through Edmonton recently on their way to Banff, Alberta, where they will be used by an American motion picture producing company in the filming of a number of northern pictures.

Dye Faded Wrap,
Skirt, Dress In

Diamond Dyes

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her old worn, faded things new. Even if she has never dyed before, she can put a rich, fadeless color into shabby skirts, dresses, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything. Buy Diamond Dyes before other kind—then perfect home dyeing is guaranteed. Tell your druggist whether the material you wish to dye is wool or silk, whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

Monster Sawfish Caught

A sawfish, weighing two and one-quarter tons has recently been caught in the bay of Panama. The fish was 15 feet long, and had a girth of nineteen feet.

The man who blows his own trumpet is usually out of tune.

Minard's Liniment for Corns and Warts

GLAD SHE DID AS
DOCTOR TOLD HER

Took Tanlac On Physicians Advice And it Put Her In Fine Condition, States Mrs. Coles

"Tanlac is certainly an ideal medicine," recently said Mrs. Bessie Coles, highly esteemed resident of 1851 Lorne St., Regina, Sask.

"I was in such a badly run-down condition that I just felt miserable all the time. My appetite had failed me to such an extent that I was losing weight steadily. My nerves were awfully unstrung; many, many times I couldn't get over an hour's sleep all night long, and I never felt like doing my housework at all.

"I was badly in need of something to build me up and when a physician advised me to take Tanlac, I lost no time getting a bottle. Now, I really don't feel like the same person, the medicine has done me such a world of good. My nerves have straightened down."

"I am sleeping like a child, eating heartily, have gained several pounds, and am feeling just fine. Knowing what a wonderful medicine Tanlac is, I can sincerely recommend it to anyone."

Tanlac is for sale by all good druggists. Over 25-million bottles sold.

1922 Dominion Income Tax \$55,517,222

Montreal paid the largest amount of income tax during the fiscal year to December 31, the amount being \$13,135,549. Toronto came next with \$11,743,740 and Winnipeg third with \$4,019,399. The total collected income tax throughout the Dominion in the same period was \$55,517,222.

Extra Lady 50 cents.
Refreshments Served.

Meridian Lodge "At Home."

The members of the local Masonic Meridian Lodge gave a very enjoyable affair last Friday night in Freifeld's Hall, which was tastefully decorated for the occasion. The lunch table was very daintily arranged for a buffet lunch which was served during the evening. A program of games was followed by recitations and a few musical numbers. The object of the party was a complete success as the most of the Masons in the Stony Plain District coming from as far as Duffield met for a better acquaintance, all those who attended voted the party one of the best they ever attended in Stony Plain.

Children of Unmarried Persons

After considerable discussion in committee of the whole the bill of Hon. Mrs. Parlyb's for protection of children of unmarried persons has been reported for third reading in the Legislature. Some changes were made in committee, one of them being that instead of magistrates, district court judges only will hear complaints laid under the act, these to be made in writing or on oath. The number of persons who may lay a charge under the act is limited to the mother, the next friend or guardian, and the superintendent of neglected children of the province.

Pure Dope.

In good times, like these, we should all take our wives (single men excepted) to Banff.

Spring is coming and so is our new stock of Marriage Licenses.

Tamracs posts are a little hard to get this spring; they are nearly all "broke" like the rest of us.

We sold fifteen farms last week, and made ten thousand dollars in commissions, and then we hit our hand against the bed post and woke up. Oh what a grand and glorious feeling—R. W. Pinnett, in Tolfield Mercury.

One Paper Free.

Are you going to take advantage of our offer of a year's subscription for The Sun and The Canadian Power Farmer for \$1.50? This offer holds good for old subscribers as well as new. You will be wise to snap at this proposition before our arrangements with The Canadian Power Farmer are cancelled.
